VALUE

FEATURES

LOW PRICED

WATER BASED

LOW VOC

CLEAN RELEASE

Release Agent #10 E is a revolutionary water-based form release agent that is ideally suited for use on dense, non-absorptive form surfaces such as steel, aluminum, plastic, fiberglass as well as HDO, PSF and high density melamine plywood forms.

- **VOC compliant in all 50 states and Canada**
- **Low odor**
- **Applied easily with low pressure sprayer**
- **Dries quickly and reduces slipperiness**
- **High coverage rates**
- **Excellent rain resistance**
- **Ideal for architectural concrete surfaces**
