chemical solutions to concrete problems

DECO-PEEL®
ACRYLIC SEALER REMOVER

Easily Remove old acrylic coatings with the **Deco-Peel®** Blanket System

and Restore with Nox-Crete's Decorative Sealers

Deco-Peel's breakthrough blanket system perfects the removal of chalky or worn acrylic sealers from decorative concrete while protecting sensitive landscaping, pool copings, and exterior siding, doors, and windows susceptible to damage from resin splatter.

BENEFITS

- Innovative blanket system allows for easy no-mess acrylic sealer removal
- No pressure washer needed
- Efficiently removes blistering, yellowing, chalky, cloudy or peeling acrylic coatings on exterior concrete
- Perfect for all decorative concrete, driveways, patios and walkways
- Ideal for spaces where damage to surrounding surfaces are a concern
- Uses biodegradable solvents
- Eliminates splatter as well as run-off created from pressure wash removals
- Fast-drying and easy to use
- Green Engineered® better for health and the environment

DECO-PEEL[®]

ACRYLIC SEALER REMOVER

Deco-Peel makes removing old acrylic sealers as easy as **1-2-3**.

1

Roll it out.

Roll Out the Deco-Peel[®] Blanket on the old acrylic sealer. Trim corners and curves to fit.

2

Roll it on.

Roll On Deco-Peel Liquid Stripper over the blanket until saturated. Allow the liquid to dry. (Usually 2-4 hours).

3

Peel it off.

Peel Off the blanket. There's nothing more to do. Just throw away the blanket and apply a new sealer.

After the stripping is done, your decorative concrete is ready to **RESTORE** to its original beauty with a Nox-Crete acrylic sealer

RESTORE

Finish the job right! Use Nox-Crete sealers to bring decorative concrete back to life.

Protect decorative concrete with Nox-Crete's durable, long-lasting acrylic sealers. Made with the highest quality acrylic resins and deep penetrating solvents, our sealers are designed to eliminate yellowing, chalking, blistering and peeling, providing long-lasting durability and shine.
